

Agility

Firm Fact Sheet // 2Q 2023

Long-term vision.
Daily oversight.

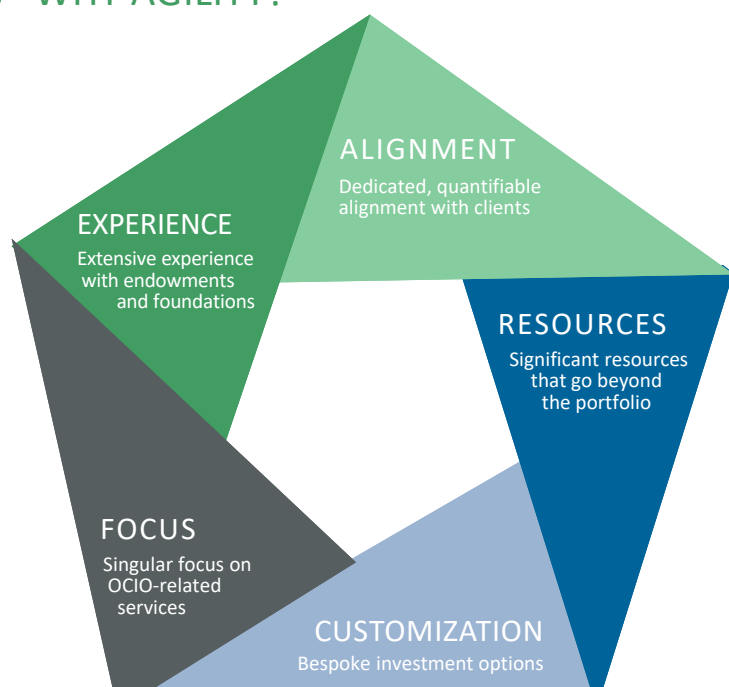

/ OVERVIEW

Agility has provided Outsourced CIO services to a select group of endowments and foundations since inception in 2007. Led by six partners with over 160 years of collective experience, our team works closely with a limited number of clients to develop and execute customized investment solutions. By providing the dedicated resources, expertise, and daily oversight that prudent management of long-term assets demands, we strive to make each client feel as if it has its own in-house investment team.

/ PHILOSOPHY

We founded Agility on a few simple ideas that remain the core tenets of our investment philosophy today: collaborative decision-making; multi-manager, multi-asset class portfolio construction; customized asset allocation; and rigorous due diligence on each investment. These ideas form the basis of our approach to everything we do – from manager selection and portfolio construction to operational due diligence and risk management.

/ WHY AGILITY?

/ CAPABILITIES

- › Multi-asset class portfolio solutions that leverage a global network of managers.
- › Customized portfolios tailored to each client's unique situation.
- › Specialty mandates such as environmental, social, and governance (ESG) and mission-aligned investing.

These contents ("Information") are proprietary information and products of Agility and may not be reproduced or disseminated in whole or part without the prior written consent of Agility. The Information has been prepared solely for informational purposes and is not an offer to buy or sell or a solicitation of an offer to buy or sell any security or to participate in any trading strategy or for the provision of investment advisory services. If any offer of securities is made, it will be pursuant to a definitive confidential offering memorandum or investment management agreement ("IMA") which contains material information not contained herein and which supersedes this Information in its entirety. Any decision to invest in the investments described herein or participate in investment management arrangements should be made after reviewing such definitive offering memorandum or IMA, conducting such investigations as the investor deems necessary and consulting the investor's own investment, legal, accounting and tax advisors in order to make an independent determination of the suitability and consequences of an investment.

Investments discussed herein may be speculative and involve a high degree of risk; could result in loss; and may have volatile performance. There is no assurance objectives will be met. Alternative investments, including commodities, can be speculative, involve substantial risk of loss, and may not be suitable for all investors.

Pension Bridge Institutional Asset Management Award for "OCIO of the Year": Following a public call for applications, a panel of judges for the Pension Bridge Institutional Asset Management Awards (comprised of seven individuals for 2021) selected award category winners based on each entrant's responses to evaluation category questions. Evaluation criteria includes quantitative

information regarding number and asset value of new institutional clients added over the past year, percentage business growth for the same period, as well as qualitative information, including how advice over the last year impacted client returns, excellence in customer servicing, and ESG strategies and implementation and innovations implemented in the previous year. Each category was assigned a designated percentage of the total score. The winners for each category were announced at an annual awards ceremony. For additional information on the OCIO of the Year Award, please visit: <https://www.iamanagementawards.com/home>. Institutional Investor Magazine and Foundation & Endowment Intelligence Award for "Outsourced CIO of the Year": Following a public call for nominations, the editorial staff of Institutional Investor magazine selected award nominees based on how strongly candidates, both those put forward via the call for nominations, and those independently identified by the editorial staff, meet the criteria for their respective categories. Once the nominees were publicly announced, the magazine group then conducted a wide survey of U.S. institutional investors and invited them to vote for the manager nominees. Hedge fund managers were also invited to vote for the investor nominees. Institutional Investor's editorial staff analyzed the results of the voting to determine the winners, who were announced at the annual awards dinner and ceremony. Foundation & Endowment Intelligence, published by Institutional Investor covers non-profit investment opportunities and the non-profit sector. Following 2019, the Outsourced CIO of the Year is no longer an award category provided by Institutional Investor. Agility has no affiliation with Pension Bridge, Institutional Investor, Foundation & Endowment Intelligence, nor any persons who select the award. Agility did not pay any fees to be considered for any of the awards referenced herein. **The Awards are not indicative of Agility's future performance, nor are they representative of any one client's experience with Agility.**
